Langay, Shadiwal road, Gujrat (Remote), Punjab, 50700, Pakistan

MERN Stack Developer experienced in building modern, responsive, user-friendly web applications with React.js and working with Node.js and Express APIs. Skilled in RESTful APIs, OAuth 2.0, Third-party integrations, Docker, CI/CD Pipelines, and cloud-based deployment, delivering clean, maintainable, and scalable solutions.

Work Experience

Full-Stack MERN Developer | TrustBridge AI

Aug 2025 - Present

Academic Project | Gujrat (On-site)

Architected a scalable MERN platform connecting entrepreneurs and investors with secure, modular components. Implemented a role-based UI with granular permissions using JWT, for user-friendly and secure experience. Integrated Agora WebRTC for real-time collaboration and chat, ensuring high performance, scalability, and deployed for seamless user experience.

Full-Stack MERN Developer (Internship)

Mar 2025 - Aug 2025

Developers Hub Corporation | Islamabad (Remote)

Developed a scalable, maintainable, component-based Global-Mart platform using the MERN stack with modular microservices.

Designed and deployed responsive React.js + Tailwind CSS interface for seamless cross-platform user experience. Optimized Express.js APIs and containerized deployment using Docker and CI/CD pipelines for automation and reliability.

Full-Stack Developer

Nov 2024 - Apr 2025

Apprenticeship | Gujrat

Built a full-stack finance management tool to track users' daily transactions with secure JWT authentication. Developed React.js frontend for responsive and interactive UI, integrating efficient Node.js and MongoDB backend. Enabled real-time data management, analytics, and personalized transaction insights for improved financial tracking.

Web developer

Feb 2024 - May 2024

Apprenticeship | Gujrat (Remote)

Built a product showcase website using HTML, CSS, and PHP to practice frontend and backend integration. Crafted relational databases with MySQL, demonstrating backend logic and problem-solving. Simultaneously enhanced React.js skills through side projects and component-based UI exercises.

Core Skills

Technical Skills: Node.js, Express.js, Version Control, React.js, Docker, Tailwind CSS, Github, RESTful APIs, OAuth 2.0, Third Party services, CICD pipelines, HTML5, CSS3, Javascript(ES6+)

Soft skills: Attention to detail, Interactive Interface design

Education

Arid Agriculture University

Oct 2022 - Present

Bachelor of Sciences Gujarat

Relevant Coursework: Web Engineering, Advance Programming
GPA: 3.68

Certificates

Full stack developer

Sep 2025

Developers Hub Corporation
